Owners Use Semen Collection Package

Please fill out one set of forms for each individual bull you plan on collecting and return as soon as possible to the address below. Please read the entire package and the page with important information related to owners use semen and multiple owners. Incomplete information on the forms may result in a delay in collecting your bull, or the inability to collect semen for all partners.

Information Related to Owners Use Semen (OWS)

*****Important Please read*****

1. We are only able to produce OWS under the rules provided by CFIA. We are inspected by CFIA and they do come to audit our collection and shipping records each year. If we are found to be not following CFIA rules they can pull our license to collect OWS semen.
2. OWS semen is intended to be used only within the owner's herd and is not intended to be sold or distributed.
3. No health tests are required.
4. The attached package of information must be completed and returned to the office at least 2 days prior to the collection of the semen
5. You must include a copy of the registration with the individual's requiring semen listed as owners or a proper Bill of Sale stating the ownership by the individuals. Only those people listed will be able to obtain semen.
6. Each individual owner will have the requested number of straws allocated to them as per the attached form. *Please decide on the target number of semen straws that are collected. If the bull produces enough semen to freeze additional straws, please indicate the maximum number of straws that the owner would take. This maximum amount will be frozen in the event that BVGL is unable to contact the owner. *
7. We are only able to ship to the owner's name identified on the straws.

Conditions of Owner Use Only Semen

Conditions of use of bovine semen labelled “Owner Use Only”

As per Module 15.4.3 of the Artificial Insemination program

(Information Document)

All bovine semen collected under the Owner Use Only Bovine Semen module 15.4.3 of the Canadian Food Inspection Agency (CFIA) Artificial Insemination program is subject to restrictions concerning its use.

These restrictions are as follows:

- Semen labelled “Owner Use Only” must only be used by the owner identified on the straws in his own herd.
- Semen labelled “Owner Use Only” is restricted for use and cannot be traded, given away, sold or disposed of by the owner, except by destruction.
- This semen is to be stored at the farm of the owner or in a CFIA approved storage centre dedicated to that purpose.
- Semen labelled “Owner Use Only” must never leave the farm premises or approved storage centre, except for transfer between those premises.
- When the herd is sold or dispersed semen labelled “Owner Use Only” may be kept on the farm premises for future use by the owner or destroyed.
- When the herd changes ownership and remains on the same premise’s semen labelled “Owner Use Only” can be used by the new owner of herd on these premises only.

As owner of the donor bull described below, I receive today semen straws labelled “Owner Use Only” collected from the following bull and identified to my name as prescribed by the Module 15.4.3 of the CFIA Artificial Insemination program:

Bull Name & Tattoo: _____

RFID#: _____

Date of Collection: _____

Collector’s Permit Number: 8-OWS-24 Bow Valley Genetics Ltd.

Owner Identified Straws: _____

Address: _____

(Note: above information is completed by the permit holder.)

I have read this document restricting the use of this semen.
